ACTIFS

Donkey milk

Invigorating and soothing

Rich in vitamins A, B, C and E, donkey milk is a real skin saviour. It helps fight against the visible signs of ageing, with Omega 3 and 6 fatty acids, protecting the skin from environmental stressors. Donkey milk is an exceptional product, both soothing and nutrient-rich.

Shea butter

Invigorating and soothing

With powerful regenerative and skin-repairing properties, thanks to its natural content of vitamins A, D, E and F. Soothes, protects, nourishes and softens the skin, helping to keep you looking young and healthy

Bee wax

Healing

Leaves a film on the skin that protects it against external aggressions. Rich in vitamin A, it nourishes the skin and facilitates healing thanks to its anti-inflammatory properties.

Coconut oil

Softening

Has fatty acids (lauric acid: 50% and myristic acid: 20%) which give it easy absorption by the skin. It is the anti-dehydration oil par excellence. A subtle floral and powdery fragrance leaves the skin delicately perfumed.

Beauty routine

Consider completing your range of products with lavender and/or poppy scented soap or shower gel. After using the solid shea butter soap, apply the lavender or poppy scented body milk to moisturize, soften and nourish your skin.
